ABOUT US

Desert Development Contracting has been established in Abu Dhabi since 2004. For more than 14 years our business has been built around people, that is why we offer excellent services, assured quality products with a commitment for the highest technical and managerial abilities. We constantly improve the way we work by incorporating innovative technologies in modern and traditional constructions. Our clients appreciate our transparency, safety practices and reliability. The wide range of projects across the UAE is our pride as each project is being individually taken care of, precisely analyzed to ensure implementation of high quality solutions and accurate construction methods.

Desert Development Contracting portfolio includes Industrial, Commercial, Institutional, Residential and Infrastructure Complexes such as villa compounds, towers, fit-out, interior designs and schools. We are a services provider for both public and

private sector customers based on a business model that is ready to handle any one of a range of services or several services simultaneously and their management. To our customers we offer a broad range of services, some of our completed projects include:

- **Design build, turnkey construction of commercial and non-process buildings**
- **Industrial Construction**
- **Steel Construction**
- **General Construction**
- **Design and build MEP services**

Our company has succeeded in positioning itself as respective and professional service provider able to execute fast-track projects through adapting to the needs that results in optimized use of resources and costs.

DESERT DEVELOPMENT CONTRACTING

EXPERTISE

Desert Development Contracting is a company with a long-term vision that acts accordingly to our mission to execute any projects in all our business areas.

We aim to meet the needs of today without compromising the ability of future generations to meet theirs. Rising living standards and growing population will drive demand for new infrastructure, and create new needs associated with the growth of cities. We strive to understand those needs and the needs of our customers.

We are what we repeatedly do. Excellence then, is not an act, but a habit. Our highly qualified engineering, project execution, steel erection, (MEP) teams and skilled labour force leverage diversity to deliver the best solutions. Desert Development Contracting aims at creating the most highly diverse and skilled teams that are best equipped to add value to

the customers, partners, communities and work in a constantly evolving and demanding environment. At the same time, measures are strengthened to foster a company culture based on equal opportunities, high performance social responsibility and the satisfaction of the people who work with us.

Information Management System (IMS) is used to integrate all components of our business into one coherent system which enables the achievement of our mission, vision, goals and objectives. Integrated means combined, thus is designed to maintain consistency within Desert Development Contracting activities, improve internal, external communication, harmonise and optimise practises. We use IMS to reduce risks, avoid duplication, identify as well as create a formalisation of information systems and rationalise conflicting responsibilities along with relationships. The IMS has received certification under the three international standards for quality, environment, and operational health and safety.

DESERT DEVELOPMENT CONTRACTING

SUSTAINABILITY AND ENVIRONMENT

The earth is what we all have in common, that is why our commitment to contribute to a more sustainable world is resolute. Desert Development Contracting recognizes the importance of addressing sustainability in today's world, which is grounded by the guiding principles of social responsibility, environmental

stewardship, and economic growth. Using renewable technologies, reducing and offsetting its emissions, seeking innovative solutions is the contribution we do to preserve and respect an environment.

The challenges and opportunities that are, or could be, linked to our activities are anticipated as we plan ahead to address and employ the right policies and strategies. Using resources responsibly, preventing pollution, managing waste effectively,

and protecting the environment and biodiversity is our share to the fighting climate change. Desert Development Contracting environmental performance is achieved by setting objectives, measuring progress and communicating achieved results to our business partners. All employees, departments, subcontractors, suppliers and consultants have necessary skills to fulfill environmental obligations and work together to contribute to a more sustainable world.

DESERT DEVELOPMENT CONTRACTING

HEALTH AND SAFETY

Desert Development Contracting has a comprehensive Environment, Health and Safety (EHS) management system implemented to ensure the well-being of all employees. The management is committed to the successful execution of our projects and the establishment of an accident-free record. The EHS system is specific to the requirements of each project. Our teams identifies all EHS aspects and potential hazards to promote a safe and healthy working environment and improve overall performance. The EHS plan is developed, implemented and maintained throughout the project lifespan to ensure that all personnel including

subcontractors, partners and suppliers are working systematically to eliminate and reduce the number of workplace accidents. Our effectiveness is achieved through organizing the activities that will range from seminars and workshops addressing safe working methods, worksite visits by management focusing on a safe work environment, management training programs and rescue techniques used in an accident situation in collaboration with fire emergency personnel. We rewards workers who have shown particular care and attention to EMS matters. We are working together for everyone's safety!

DESERT DEVELOPMENT ELECTROMECHANICAL

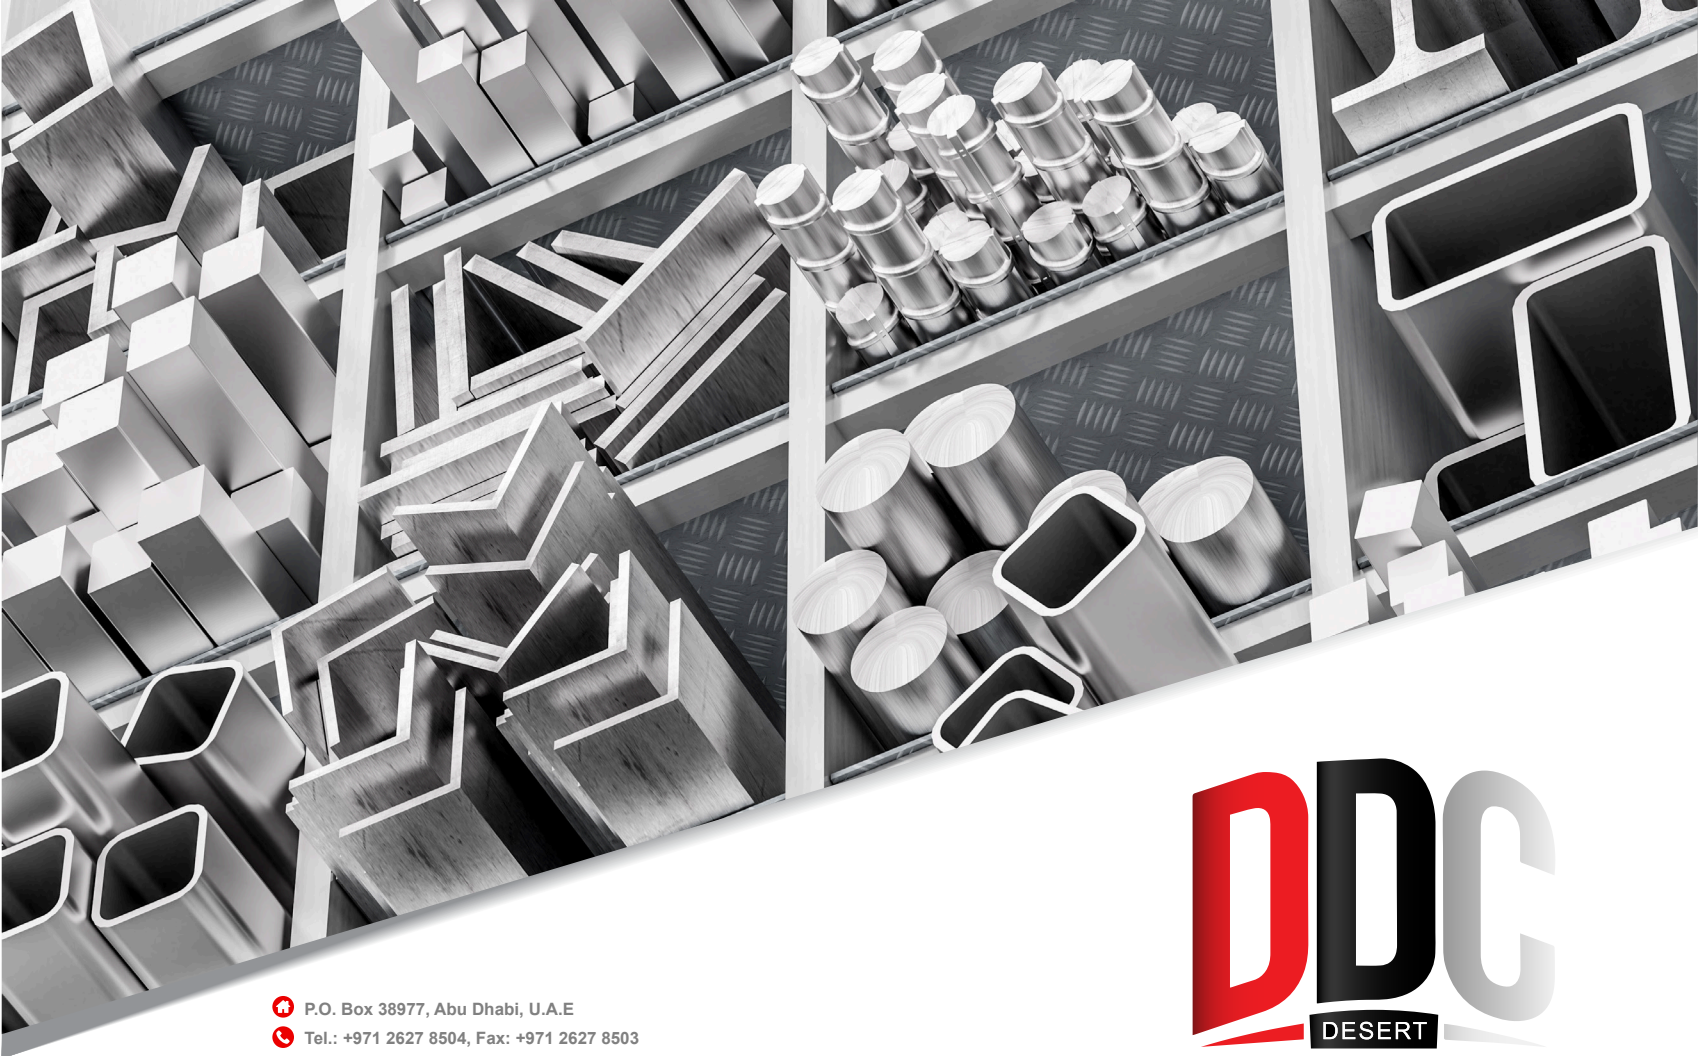

VISION AND MISSION

VISION

To create the most reliable name in the construction industry throughout the region by continuously providing as well as developing high quality services and implementing innovative new technologies.

MISSION

To provide high quality, unique, budgetary control services in a given accounting period to our clients.
To operate in an environmental manner and take responsibility for wellbeing of communities in which we are present.
To promote and take initiatives in creating safe, united and healthy workplace.

 P.O. Box 38977, Abu Dhabi, U.A.E

DESERT DEVELOPMENT STEEL & ALUMINUM WORKS

EFFICIENCY

We ensure the highest level of quality and service based on provided requirements, time and budget via embracing the latest technology. A structured approach towards work and effectively carrying out tasks lead us to the continuous growth and expansions.

RELIABILITY

We are committed to what we do, performing consistently well, thus delivering services in timely manner is our

priority. We implement, follow and stick to the procedures in organized and detail oriented way.

DEVELOPMENT

We have vast experience as we are up to date with the latest developments within the construction industry worldwide and adapt those new solutions to the local market. We think outside the box and introduce new perspectives in order to exceed the needs and expectations of our clients.
